HIGH MAST POLE

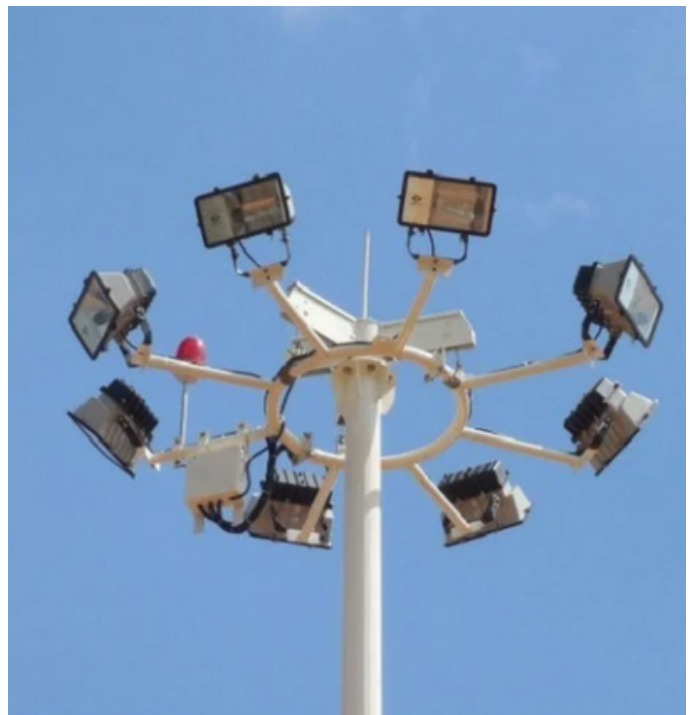

A High mast pole is a tall , freestanding structure designed to support a group of powerful lighting fixtures , typically used for illuminating large areas such as highways , airports , parking lots , industrial complex , and other expansive spaces. These Poles are distinguished by their considerable height and the arrangement of multiple lighting fixtures at the top. High mast light poles play a crucial role in providing adequate and uniform illumination over extensive areas , improving visibility , safety , and security during nighttime or low-light conditions. They are engineered to withstand adverse weather conditions and are often customized to suit the specific requirements of the area they illuminate.

Technical Specification

Shpae	Polygonal
Height	Between 12 M to 40 M
No. of Luminary	4,6,8,10,12 etc
Finish	Hot-Dip Galvanized , PU Paint
Note :- Customized pole is also available as per the Standard Design data .	

STADIUM MAST POLE

A Stadium mast pole, also known as a sports lighting mast or stadium lighting pole, is a specialized tall structure designed to support high-intensity lighting fixtures, primarily for the purpose of illuminating sports fields, stadiums, and outdoor recreational areas. These poles are a key component of sports lighting systems, ensuring that sports events and activities can take place safely and effectively during evening hours or in low-light conditions.
